Bard fighting is again taking place in France between the entente allies and Germans. Since Tuesday the British and French near Courcelette and on the Les Boeufs-Gueudecourt front and south, have attacked violently, with the Germans tenaciously holding them back, except to the east of Les Boeufs, where the combined entente forces have gained some ground, and west of Les Boeufs, in the St. Pierre vast wood and near Sailly-Saillisel, where the men of General Foch took additional German trenches. Between Le Sars and Gueudecourt and near the Schwaben redoubt the Germans are heavily bombarding British bositions.

If the case narrows down to a question of armament, the outcome would appear to hinge upon whether the Marina resisted the submarines or attempted to fies. The mere question of armament for defensive purposes, such as is usual on merchant ships, would seem to be eliminated so far as the United States is concerned.

Mr. Lansing announced today that the United States stood on the same ground it took in the Sussex note which warned Germany that unless attacks without warning on peaceful merchant ships were discontinued, the United States would have no choice but sever diplomatic relations alto-

The privately expressed oninion of some officials, is that should the destruction of the Marina without warning be admitted. Germany may contend that her guarantees in the Sussex case did not apply to armed ships which she maintains are under instructions of the British admiralty to destroy submarines. In that event the United States would be confronted with determining whether the mining whether the situation permits of further negotiation or whether it calls for action consistent with the declurations in the Sussex note.

Those who expect the case may take such a turn, regard the possibility as an evidence of the threatened widening

of the scope of submarine warfare. While the situation at this stage gives no outward evidence of the ten-sion which attended the several sub-marine crises in the last two years, no attempt is made to disguise the possi-bility that it may develop a situation of the utmost gravity. Until all the facts are gathered and substantiated by legal evidence, and until Germany's ver-sion of the affair is at hand, it is doubtful if the state department will permit any of the developments to be-come public. When the case is com-plete, the ultimate decision will rest with President Wilson,

### TO THE VOTERS OF THE STATE OF ARIZONA:

lovers of fair play, lovers of justice in all things and of frowning upon anything tending towards sharp practices, injustice, or unfairness. It is a splendid reputation to possess and one of which every true Arizonan

should be proud.
DO YOU, MR. VOTER, BELIEVE IN CLEAN, FAIR POLITICS? IF SO, CAN YOU PLACE THE STAMP OF APPROVAL UPON THE CANDIDATE WHO WILL RESORT TO SUCH TACTICS AS ARE DISCLOSED IN THE FOLLOWING?

Whisperings have been going around for some time that the democratic party had something to spring towards the close of the campaign that would cinch the defeat of Tom Campbell for governor.

That something has just leaked out, but in a way which was not expected as the means to be used were for only a few to use and then

It consisted of a series of bogus letters, not only conveying the false impression that Tom Campbell was secretly favoring the return of the saloon to the state but that such an understanding had been made between him and the liquor interests.

These letters, which must have been known to have been fraudulent, have been sent out by Governor Hunt and some of his friends, with the warning that the information contained in them should be used with the greatest caution, as it was not desired to give it undue publicity

The letters speak for themselves and bear the impress of fraud on their very face. Two of the letters appear to have been written by the same person and addressed also to the same individual, at Reno, Nevada, and read as follows:

"Hotel Turpin, San Francisco, Gal., Sept. 16, 1916

"Reno, Nevada. "Friend Bort:-

"It looks from the reports from Arizona that Hunt has copped the omination for Gov. That means we will have a bigger fight on our hands to elect Campbell. I got a letter from Tom Jones, who was in Tucson election day and he says the bunch did all they could to skin Hunt. Jones says Campbell can be counted on to do the right thing and that it is only a matter of time when booze will be sold in Arizona. He says there is no danger of the republican bunch putting a straw in our way.

"Will meet you in Los Angeles after election if it goes our way and Tom Campbell is elected Gov.

"GROVER HAYES."

"Hotel Turpin, San Francisco, Cal., Sept. 22, 1916

"Friend Bert-"Business is rotten on the coast in the saloon line. That fellow from Yuma that used to tend bar at the Bismark has sold his saloon in Frisco. He has gone to Phoenix to do some work for Campbell. He is stopping at the Adams Hotel. I met him some time ago at a dump on the water front and he said all the saloon men and cafe keepers in Tucson and Phoenix were lined up for Campbell.

"I understand that some of the old saloon keepers in Prescott have gone back. There are about 300 bartenders and salcon keepers from all over Arizona who are now on the coast who have been assessed from

five dollars up for the fund to help land Campbell. "A committee in Phoenix or Tucson are handling the coin and they say the chances are good and that things will again be bright for the old gang like them good old days. I gave ten bucks and sent it to Rogers

who is tending bar in Los. If we skin Hunt I will meet you in Los. "Your Friend, "GROVER HAYES."

Two people in Phoenix and one in Tucson are known to have received copies of these letters with instructions to exercise the greatest

The third letter, which bears the ear marks of being manufactured in the same counterfeit moulds as the other, was received from Florence where copies of it were being circulated by parties connected with the

This letter was addressed also to Reno, but to a different person than the other two, the address being "Frank M. Murlock, Reno, Nevada, Reno Commercial Club." The letter reads: "Los Angeles, Oct. 4.

"Dear Sir: Grover Hayes told me that you was in Reno and I thought I would write and ask you if you wanted a job doing some political work in Arizona.

All the saloon men and bar tenders who used to live in Arizona have formed an organization to help elect Campbell Governor. He is running on the rep, ticket and if he is elected can get some favors of We might get a bill through the Legislature that will help us and Campbell will sign it all right.

Bert Eames told me in a letter you was in Reno on a paper so I thought I would write and ask you if you would like to get to Tucson and do some writing for us and help get out some circulars. Telegraph and do some writing for us and help get out some circulars. go to Tucson together. There will be a month's work for you and I hope you take the job.

Let me know quick as you get this and I will telegraph a ticket and money for expenses coming down. There is about 400 of the old saloon bunch clubbed together and some of the wholesale cigar and whiskey houses on the coast have put up some money for us so we have got quite a lot of money and your money will be sure. We got to elect Campbell if we can

Be sure and let me hear from you just as soon as you get this. HENRY T. ROGERS.

Telegraph care Hollenbeck bar Los Angeles. Be sure and keep this under your hat as we're doing this work secret and working under cover. Campbell don't want it public. He says it would lose him a lot of the church vote.

A circumstance which establishes the fact that all of these fake letters were the product of the same factory is found in the fact that in the second epistle of Grover Hayes to the Reneite, reference is made to one "Rogers who is tending bar in Los," while the third letter purports to have been written by this same, "make believe" Rogers himself, who ves his address as Hollenbeck bar, carrying out the impression of his being a bartender there, as indicated in the Hayes letter.

A telegram of inquiry sent to Los Angeles in reference to the alleged author of this letter was received in Phoenix saying:

"Henry T. Rogers absolutely unknown around Hollenbeck, either in bar or hotel. Never had a bartender by that name."

The very ridiculousness of the letters themselves are evidence of

WHAT DO THE VOTERS OF ARIZONA THINK OF A MAN WHO OCCUPIES THE HIGH OFFICE OF GOVERNOR, AND IS A CANDI DATE FOR RE-ELECTION RESORTING TO SUCH VILE METHODS OF CAMPAIGNING?

The lowest down ward-heeler in the slum portions of a large city could scarcely devise any lower political tactics.

That Governor Hunt has used these letters in the campaign is well authenticated. Unless he had the originals and had authoritative information of the identity, respectability and reliability of the persons alleged to have written them, he has shown a disposition to resort to anything to defeat his opponent, no matter how despicable it may be.

Even if the letters were genuine, he knows full well that Tom Campbell would not be a party to such an agreement as is outlined in them and his act in circulating them, even under such circumstances is none the less reprehensible.

Whether the letters were genuine or manufactured, he knew that the contents of them were absolute falsehoods, so far as they pertained to Tom Campbell favoring the return of the saloons.

If Governor Hunt can establish the proof of the genuineness of these letters the space occupied by this advertisement will be given to him free for that purpose.

But whether they were genuine or faked, as the evidence goes to show, the circulating them by Governor Hunt makes him equally culpable, as though were manufactured for the purpose. His means of circulating them with the warnings of using precaution as to who should be given them was evidence that he himself was aware of the nefariousness of such a practice and ashamed of his acts, becoming known.

THE QUESTION THEN IS WILL THE FAIR MINDED VOTERS OF THE STATE ENDORSE SUCH SCURRILOUS POLITICS OR WILL THEY CONDEMN IT BY THEIR VOTES?
